

# Naughty Nitoo

One pleasant day, Nitoo and Nita were coming back from school.

On the way, they saw a puppy crying.

Look Didi, the puppy is crying.

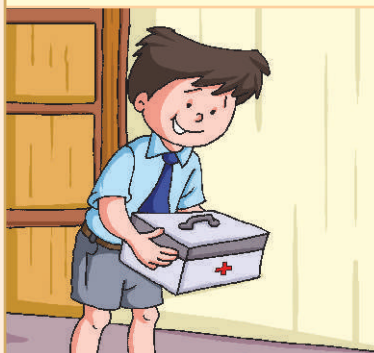

Oh! It seems to be injured.

They picked up the puppy...

...and brought it home.

Then Nitoo brought his first-aid box.

Nita tied a bandage over the puppy's wound.

Didi, why is it crying now?

It must be hungry.

Do animals also feel hunger like us?

Yes! See how it is lapping the milk.

Didi, it is cold today. Can we keep the puppy with us?

Yeah! But we have to make a home for it.

They built a small home for the puppy.

They spread a soft cloth and made the puppy lie on it.

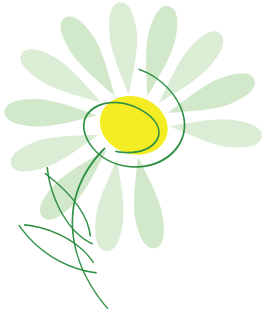

Look Nitoo! How it is sleeping now!

Yes Didi, we will keep it with us. I'll call it Bruno.

Nitoo was very happy that day.

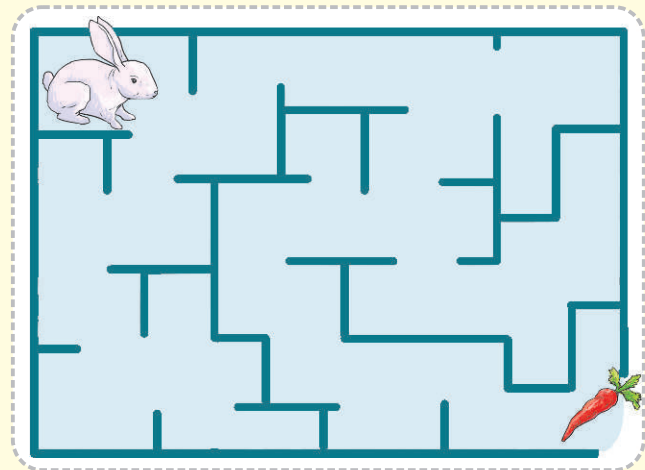

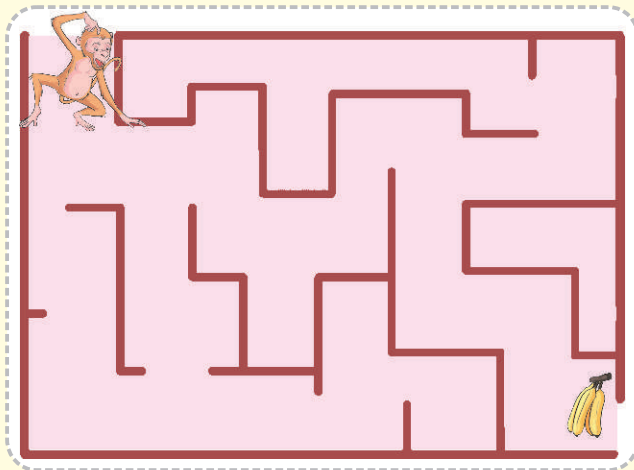

# Food and Shelter for Animals

## BEFORE WE START, LET'S CHECK

### What you already know

Take the animals to their favourite food.

### What you will know

What kinds of food  
do animals eat?

Do animals also need  
a home to live in?

Do animals make their  
homes themselves?

We know that animals are living things.

All living things need food to live.

Animals also need food to live and grow.

Animals move here and there in search of food.

## FOOD OF ANIMALS

Animals eat different kinds of food.

Some animals eat grass, small plants and leaves of trees.

cow

goat

giraffe

Some animals eat grains.

mouse

hen

squirrel

Some animals love to eat fruits and vegetables.

rabbit

monkey

parrot

Some animals eat insects and worms.

lizard

frog

spider

Some animals eat the flesh of other animals.

lion

snake

vulture

Some animals eat both plants and the flesh of animals.

crow

bear

**FIND OUT**

Find out and write what these animals eat.

camel

pigeon

crocodile

termite

## HOMES OF ANIMALS

Animals need homes to live in.

Homes protect them from bad weather.

Homes also keep animals safe from their enemies.

Animals live in different kinds of homes.

Some animals find safe places to live in.

A lion lives in  
a **cave**.

A snake finds a  
**hole** to live in.

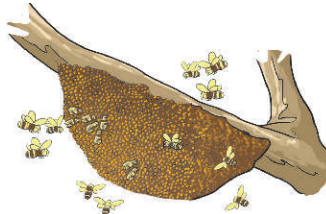

An owl finds a  
**hollow** in a tree.

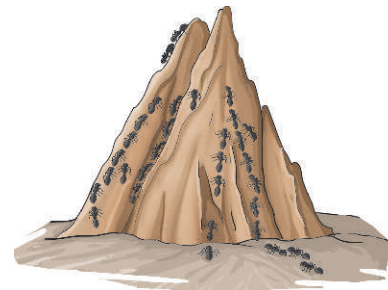

Some animals make their own homes.

A rabbit digs  
a **burrow**.

Bees make  
a **hive**.

Ants make  
an **anthill**.

You may have seen a bird's **nest**.

Birds make nests with straw, twigs, leaves, etc.

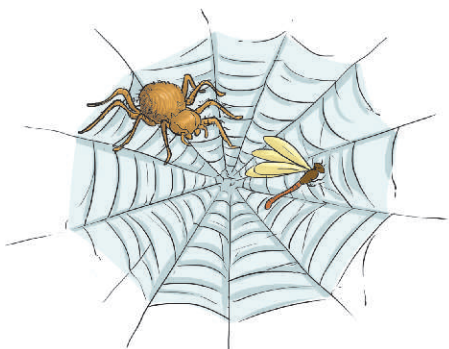

But they do not live in nests.

They make nests to lay eggs and keep their babies.

### KNOW A FACT

A tailorbird stitches leaves  
together to make its nest.

A spider **spins** a web.

But it does not live in the web.

It uses its web to catch insects to eat.

## Man-made homes

Some animals are very useful.  
We keep them near us.  
We make homes for them.

A dog is kept in a **kennel**.

Fish are kept in an **aquarium**.

Parrots are kept in a **cage**.

Cows are kept in a **cowshed**.

Hens are kept in a **coop**.

Horses are kept in a **stable**.

### Words to Remember

- protect** – keep safe from
- cave** – a natural hollow in a hill with opening on the hill side
- hollow** – having a hole or an empty space
- spin** – to move a thread round and round around a central point

### Points to Recall

- \* Animals need food to live and grow.
- \* Some animals eat leaves, fruits, vegetables and grains.
- \* Some animals eat insects, worms and the flesh of other animals.
- \* Some animals eat both plants and the flesh of animals.
- \* Animals also need homes to live in.
- \* Some animals find safe places to live in.
- \* Some animals make their own homes.
- \* We make homes for the animals we keep.

# Exercises

## A. Tick (✓) the correct option.

1. Which of the following does not eat grains?

(a) frog

☐

(b) hen

☐

(c) squirrel

☐

2. Which of the following likes to eat carrots?

(a) hen

☐

(b) rabbit

☐

(c) snake

☐

3. Homes protect animals from

(a) bad weather

☐

(b) enemies

☐

(c) both (a) and (b)

☐

4. Which of these does not make its home itself?

(a) rabbit

☐

(b) lion

☐

(c) bee

☐

5. We keep hens in a

(a) shed

☐

(b) stable

☐

(c) coop

☐

## B. Match the animals with their food.

1.

(a)

(b)

2.

3.

(c)

(d)

4.

5.

(e)

(f)

6.

## C. Write two examples of:

1. animals that eat grains

\_\_\_\_\_

\_\_\_\_\_

2. animals that eat insects

\_\_\_\_\_

\_\_\_\_\_

3. animals that eat flesh

\_\_\_\_\_

\_\_\_\_\_

4. animals that make homes \_\_\_\_\_

**D. Tick (✓) the right picture.**

1. A  /  eats leaves of trees.

2. A lizard eats  / .

3. A  /  eats both plants and the flesh of animals.

4. Bees make a  / .

5.  /  are kept in an aquarium.

**E. Answer these questions.**

1. Why do animals need food? \_\_\_\_\_

2. Why do birds make nests? \_\_\_\_\_

3. Why do spiders spin webs? \_\_\_\_\_

4. Why do we keep some animals with us? \_\_\_\_\_

**TELL YOUR TEACHER**

1. Do you like keeping birds in cages? Why / Why not?

2. Trees are home to many animals. Do you like trees being cut down?

## Let's Have Fun

Find out the names of homes of animals in the wordsearch. Then write each name below the right picture. One has been done for you.

BURROW

## Activity Time

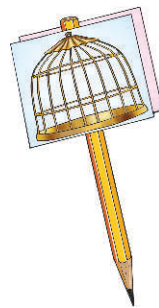

### A bird in a cage

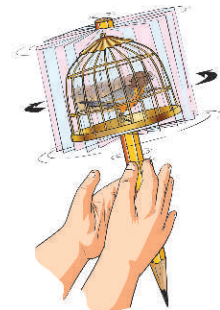

Draw a bird on a small card.

On another card, draw a cage.

Tape the two cards on the opposite sides of a pencil.

Roll the pencil between your hands. Your bird is in the cage.
